Job Schedule Overview

The Job schedule is optional to use but allows the user to see how they have schedule work easier.Â

 The Date fields are the time frame for the work. Actual dates will be assigned via the Job Calendar   "See Job Calendar". Â Land Area relates to the land associated to the selected barn.   Variety is optional but allows you to limit the Land selection to the ones that contains just that variery By Parcel is optional and allows you

- The select the land allows one detail todel assign by Blocks or by Parcels for the selected date range.
- Select by a "My Job" Or Category/Type/Job (CTJ). This determines if materials need to be used (either via a BOM or manually entered).
- The setup of the CTJ determines if it requires materials.Â

Once the selections are completed, this will flow to the Work Orders thus eliminating additional entry.

Job Schedule - 190	Schedule List	Job Calendar	Work Order List		

Barn	My Barn	My Job	Airblast Ground Spray	Land Area	My Grove
Start Date	3/11/2013	Category	Pest & Disease Mgmt	Variety	-- Select --
End Date	3/13/2013	Type	Spray	By Parcel	☐
Status	Active	Job	Ground Spray		

	Land Area	Block No	Block Name	Planted	Treatable	Row	Gross
☑	My Grove	05	Block 05	49.12	0.00	0.00	72.80
☑	My Grove	06	Block 06	63.06	0.00	0.00	63.10
☑	My Grove	07	Block 07	77.95	0.00	0.00	77.70
☑	My Grove	08	Block 08	120.18	0.00	0.00	121.50
☑	My Grove	10	Block 10	324.90	0.00	0.00	340.70
				Sum : 635.21	Sum : 0.00	Sum : 0.00	Sum : 675.80

Materials ➕

	Action	BOM	Rate/Acre	Application	Container Size	Container(s)
›	✏️ ❌	PS102 Pest Spray	1.500	GAL	60.000	16.90

The Materials Option is displayed if the CTJ requires Materials.Â Â This is to define what materials are to be used. They can be selected from a a predefinced Bill of Material (BOM) -Â see "Bill of Materials" for how this is done.Â Or the material itemsÂ can be manually selected.

Â

Job Calendar Overview

The Job Calendar allows you to View and assign the Work by day for the choosen land.Â This then creates the Work Orders.Â The Calendar alsoÂ displays if any land hasÂ Restricted Entry Intervals (REI)Â active so you can better plan when to assign the current work.

- Grey shading indicates Restricted Entry Interval
- Jobs Scheduled display in colors based on Status of the Work Order
